IN THE CLAIMS

1. (Original) A method for creating a computerized market for used goods and collectibles using a computer, a database and a plurality of participant terminals comprising the steps of:

posting a used or collectable good on a market maker computer by creating a data record for said good having an item identification and offer price;

displaying in response to a participant request from said participant terminal to display said data record information on said participant terminal;

processing an order to buy said good from said participant terminal by transferring ownership of said good from a first owner to a second owner and changing said data record to reflect a new offer price from said second owner; and

posting said good on said market maker computer at said second owner offer price.

- 2. (Original) The method of claim 1 further comprising the step of: clearing the transfer of ownership of said used good in said step of processing by debiting an account of said second owner.
- 3. (Original) The method of claim 1 further comprising the steps of creating an option to buy or sell goods at some future date at a specific quantity and price; and selling said option to a participant.
- 4. (Original) The method of claim 1 further comprising the steps of: pooling the assets of a legal owner of a plurality of collectable goods; and selling shares in said pool of assets from said step of pooling to a participant.
- 5. (Original) The method of claim 4 further comprising the steps of: creating an option to buy or sell at some future date at a specific quantity and price of said pool of assets from said step of pooling said assets; and selling said option to an participant.

Filing Date: April 13, 2004

Title: METHOD FOR FACILITATING COMMERCE AT AN INTERNET-BASED AUCTION

Page 3 Dkt: 2043.566US7

- 6. (Original) The method of claim 1 further comprising the step of: electronically presenting a good from a first computerized market to a second computerized market for goods by transferring said data record created in said step of posting a good for sale from said first computerized market to said second computerized market.
- 7. (Original) The method of claim 1 further comprising the step of: automatically paying a commission to said computerized market from said transfer of ownership of said good by said computerized market deducting said commission from said purchase price paid to said seller.
- 8. (Original) The method of claim 1 further comprising the step of:
 creating a data record of said step of transferring ownership of said good in said step of
 processing an order and storing said data record on a storage device.
- 9. (Original) The method of claim 8 further comprising the step of: searching said data records from said step of creating a data record in response to a search request from a participant.
- 10. (Original) The method of claim 8 further comprising the step of: analyzing said data records from said step of creating a data record to identify the price of a good over a predetermined period of time.
